Social Media / News Events CAT & Community Meetings	Katy Fitzgerald	Katy Fitzgerald presented information on recent media posts, CAT and community meetings, and milestone events.
2013 Financials 2017 Financials 2022 Financials	Andre Andrews	Andre Andrews presented on the bond financials stating that the 2013 numbers have been amended and are on track to close out in December. Mark Grayson noted that money from the 2017 budget went from targeted projects back into contingency this month.
Prop B Update CAF CAT Update	Michael Mann & Program Managers	Ryan Marcum reported on the status of modernization projects noting that everything in the chart (shown in the presentation) from schematic design over will go into construction in spring. 32 projects will be under construction by summer 2025.  Lori Moya asked what was included in "payroll" and Michael Mann stated that it is AISD bond funded staff.  Lori Moya asked what City of Austin coordination issues were impacting project timelines and Michael Mann answered it was

Lori Moya asked about the drainage issue at Delco. John Kelly confirmed that the team is examining the foundation and other elements related to the water issues. The analysis is coming at the end of the year.

Cheryl Bradley asked why the district is not updating the track on Nelson Field. Dan explained that it is not in the scope of the bond and the original track will remain. Cheryl then asked about the plan for the lack of parking at Nelson Field. Dan stated that the design team will be analyzing how to allow more visitor parking. John Kelly clarified that the design-build process will be looking at all options and will be a transparent process. Jaime Miller stated that the two Nelson CAT teams will be meeting to collaborate on this issue. The committee continued to discuss possible options and challenges regarding parking at Nelson Field. Cheryl Bradley requested that someone come speak to the committee about the parking situation at Nelson Field.
