

## Educational Suitability Summary Report

Crockett Early College High School

Date: 01/28/2021

**Score 55% Average**

Crockett Early College High School serves an enrollment of approximately 1,560 students in south Austin and is known for its career and technology programs. The school offers articulated classes and certifications for students so that they may graduate ready to enter the workforce. The automotive and construction programs are of particular interest, as each are in specialized facilities with a wide range of equipment and classes. It was built in 1969 and consists of approximately 350,000 square feet on 40 acres.

The building is laid out around large open courtyards wrapped by wide outdoor walkways. Although the campus takes pride in its outdoor spaces, updates to landscaping and furniture could increase opportunities for outdoor learning. Once you enter the studio wings around the central courtyard, the arrangement of typical studios is clustered in groups of six to eight. The studios are wrapped around a large group office, storage and other support spaces. In each pod, there are no collaboration or breakout areas that aid in flexible teaching. The building layout allows for the ability to reconfigure pods to provide breakout areas and other support spaces. Renovations would be

## Educational Suitability Summary Report

**Security**

Score is unsatisfactory.
