community-driven strategies to (re)build community and maintain the assets parents and community members most value about their school.

iii. The CAC will discuss potential ways the funds could be used to support the healing process of the Brooke community

iv. Parent: Concerned that Superintendent resigned yesterday and today the portable was removed with machinery while students were present. This job was supposed to happen a long time ago. This disturbed the students who felt their school was being destroyed. The fence was left open leaving the school community

frustrated with what the district is doing.

v. Brooke Principal: We need to be careful not to say things that we do not know are true. The district cannot share with the public the consequences that staff or students might experience. We are not trying to hide things, we just need to avoid hearsay.

vi. Parent: Our parents and faculty are under extreme stress. It is our responsibility to protect children and keep things in writing so email our principal, email Betty Jenkins and SEL department so that it is

- xi. Linder Principal: We are hoping the Austin Ed Fund could help fund the summer orientation camp. We felt welcomed at CATCH night.

The receiving school did not prep the students to know that new students would be coming in. The school was very responsive when they learned what was happening but it would have been better if they were prepared. That is something we could use help with, how do we build culture and prepare our students to be joined?
- xiv. &RXQVHORU :H¶YH GRQH DFWLYLWLHV LQ WKH ambassadors who talk about what they love about their school so we could see if we can bring that to the new school.
