

Space to Learn in Southwest/South Central Elementary Schools

A new elementary school, located in southwest Austin, is under construction as part of the Program. ~~Assill~~ will provide learning spaces and resources for students to thrive by creating an attendance area for the new Southwest Elementary School (relieving Kiker and Barano elementary schools), changing the boundaries between Barano and Kocurek elementary schools, and changing the boundaries between Cowan and Boone elementary schools. Overcrowded schools prevent students from learning in the best way possible – they require portable buildings, limiting the technology, innovative

Expansion of Bowie High School Engineering and Computer Science Programs

Austin ISD will strengthen and expand Bowie High School's engineering and computer science pathways by building on the successful robotics and computer science programs at the Bowie feeder middle schools. Advanced courses will be added in these areas, such as coding, emerging technologies and engineering design, which will help students excel in careers. New opportunities to pursue health science careers will be fostered by a partnership with Baylor Scott & White Health. Elementary schools in the Bowie vertical team will provide exploratory, hands-on learning experiences to spark and cultivate students' interests and talents.
