

Scenario Summary

Patton Elementary School and Small Middle School will have seamless programming that focuses on world languages and cultures and on green technology. Additional capacity to relieve overcrowding at Patton could serve as shared space between Patton and Small to better align programming between the schools. The new programming would also better prepare students for the Global Studies Academy, language programs and Career and Technical Education programs at Patton Elementary School and Small Middle School.

Expansion of Bowie High School Engineering and Computer Science Programs

Austin ISD will strengthen and expand Bowie High School's engineering and computer science pathways by building on the successful robotics, computer science, STEM and engineering programs at the Bowie feeder middle schools. Advanced coursework in these areas, such as SWIFT Apple coding, emerging technologies and engineering design, will help students excel in 21st-century careers. New opportunities to pursue health science careers will be fostered by a partnership with Baylor Scott & White Health. Elementary schools in the Bowie vertical team will provide exploratory, hands-on learning experiences to spark and cultivate students' interests and talents.

Serving Students

The Bowie vertical team is poised to accelerate computer science and engineering experiences for students from Pre-K through 12th grade. Schools will offer STEM explorations beginning with their earliest learners and continuing to college credit courses for their high school students.

Preparing Our Kids To Succeed By

- ✔ Expanding the health science, computer science and engineering curriculum at the elementary and middle schools that feed into Bowie.
- ✔ Opening the Health Science Career Launch program at Bowie with Baylor Scott & White Health.
- ✔ Expanding the Computer Science Career Launch program at Bowie with Apple.
- ✔ Preparing students for success in high school and beyond.
